AVG. CloudCare™

When eliminating IT headaches is this easy...
Why complicate?

Improve your protection, simplify and streamline IT management and boost productivity with the free platform and "pay-as-you-go" services designed specifically for the smaller business.

Stay protected
Know you will stay protected at the highest level whether on the network or on-the-go and be notified of potential risks.

Be in control
One-click service activation and full visibility of system activities makes effective management simple.
Improve productivity
Help keep your employees focused on business and don't lose valuable hours.

> **The fact that AVG CloudCare™ is so unobtrusive is a major benefit allowing us to focus on running the business.**

AVG. CloudCare™

Simple and free to set up, AVG CloudCare™ is the fast, flexible and affordable answer to more protection, more control and more productivity.

Centralised dashboard	Provides visibility of your systems and generated alerts, showing infected devices, devices requiring attention, alert summary, summary of browsing activity, device overview.
AVG® AntiVirus	Keeps your network and employees safe against online threats with the latest protection.
AVG® Content Filtering	Reduces your exposure to web-distributed malware and limits personal use of the Internet.
Restriction level	Have the option to 'Allow', 'Warn' or 'Block' users attempting to access blacklisted/whitelisted sites. ON/OFF Work also allows you to set schedules to 'Deny' websites during working hours.
Real-time updates	The most current protection will be applied the moment your employees go online.
Private Cloud	Company information is protected, encrypted and stored in AVG's own secured data center. The customer data is always held securely in a known location on known AVG servers with no outside or third party provider access allowed.
One-click service activation	Activate or de-activate services on a "pay-as-you-go" basis and only be billed for what you've used in any-one month.
Monthly Billing	No minimum contract fees. Simple pricing.
No set-up costs	No hardware or software changes mean no additional investment.
